

Controlled Substance Ordering System Available

DEA 222 Form Preparation

DEA's CSOS program allows for secure electronic controlled substances orders without the supporting paper DEA Form 222.

Ordering Freedom:

CSOS transactions are the only allowance for electronic ordering of Schedule I and II controlled substances, but may also be used for Schedule III-V substances. Additionally, CSOS has no line item limit for a single order.

Faster Transactions:

CSOS certificates contain the same identification information as DEA Form 222, which allows for timely and accurate validation by the supplier. Faster transactions allow for just-in-time ordering and smaller inventories.

Accurate Orders:

CSOS reduces the number of ordering errors.

Decreased Cost:

Order accuracy and decreased paper work result in a lower transaction cost.
