

## Controlled Substance Ordering System

### VISTAPHARM OFFERS THE OPTION OF ORDERING METHADONE ONLINE

The Controlled Substance Ordering System (CSOS) allows for secure electronic transmission of controlled substance orders without the supporting paper DEA Form 222. This program is a DEA approved and encouraged method of ordering. VistaPharm has contracted with Legisym, LLC; a DEA approved CSOS provider, to bring our customers the most current CSOS system available called Express 222. Express 222 is designed to simplify the ordering process while creating the most cost-effective solution for eliminating the paper DEA Form 222 while ensuring DEA compliance.

### GETTING STARTED

Contact VistaPharm for details to start your DEA registration process, receive your Express222 personal account details and to learn more about the simplicity of CSOS. For details contact Customer Service at 877.530.1633 or email [info@paipharma.com](mailto:info@paipharma.com)

### REQUIREMENTS

Express 222 is unique in being a web-based program that may be accessed from any personal computer with a current internet browser. To be eligible for this program you must be enrolled with the DEA CSOS program. VistaPharm will assist you with the DEA enrollment process.

### DEA FORMS

To download the DEA registration forms for the CSOS program please go to the following website [www.deaecom.gov](http://www.deaecom.gov)

### WHY USE CSOS?

Here are a few of the advantages:

- **Decreased Cost:** Order accuracy, decreased paper work, elimination of mailing paper form results in a lower transaction cost.
- **Faster Transactions:** CSOS certificates contain the same identification information as DEA Form 222, which allows for timely and accurate validation by the supplier.
- **Accurate Orders:** CSOS reduces the number of ordering errors.
